CLASS DESCRIPTIONS

MON & THU TFW Upper & Lower Body Strength: Monday's are Upper Body; Thursday's are Lower Body strength training. It's important to work on muscular strength and muscular endurance if you are trying to lose body fat and/or lean tissue. During these classes we focus on your major muscle groups and utilize barbells, dumbbells, pull-up bars, and TRX'S.

TUES & FRI TFW Hurricane: TFW has 6 signature Hurricane workouts. A Hurricane day is a metabolic workout that goes along with burning fat and building muscle. Why is it called a Hurricane day. It's a brief but powerful workout that creates a disturbance in the body. Once that is done, you will burn more fat and be leaner. The 6 workouts are Hurricane, warrior days, pyramid, energy circuits, timed events, and sprint/tabata.

WED: KettleBell by RE: This workout combines cardio with strength and flexibility training to give you a safe and effective workout. Kettlebells are extremely effective training tools for providing total-body strength and conditioning. As with any technical movement, lift, or skill, proper coaching is required to maximize the benefits.

WED: TFW Body Speed Strength: It's a combination of a metabolic and strength days. This day is a day where you use strength exercises but you do them faster without sacrificing form or intensity. This type of workout increases power. The speed/strength days is the middle ground of a strength day and a metabolic day. There are 4 styles of workouts for speed/strength. Decathlon/Hepth, 100 rep, 9-5 workout, and a bar complex workout.

SAT: Ultimate by RE: Ultimate boot camp is a 60-minute class that hits all major muscle groups. Performed using a variety of equipment: dumbbells, medicine balls, ARX, kettlebells, pull-up bars, and more; while using a variety of body movements. The ultimate workout for optimal fitness!

We proudly take the preferred fitness program.
